Summary of our Industry

Real estate sector is one of the most globally recognized sectors. It comprises of four sub sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth in the corporate environment and the demand for office space as well as urban and semi-urban accommodations. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy.

In India, the real estate sector is the second-highest employment generator, after the agriculture sector. It is also expected that this sector will incur more non-resident Indian (NRI) investment, both in the short term and the long

term. Bengaluru is expected to be the most favoured property investment destination for NRIs, followed by Ahmedabad, Pune, Chennai, Goa, Delhi and Dehradun.

Market Size

By 2040, real estate market will grow to Rs. 65,000 crore (US\$ 9.30 billion) from Rs. 12,000 crore (US\$ 1.72 billion) in 2019. Real estate sector in India is expected to reach a market size of US\$ 1 trillion by 2030 from US\$ 120 billion in 2017 and contribute 13% to the country's GDP by 2025. Increasing share of real estate in the GDP would be supported by increasing industrial activity, improving income level and urbanisation. Retail, hospitality, and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

As per ICRA estimates, Indian firms are expected to raise >Rs. 3.5 trillion (US\$ 48 billion) through infrastructure and real estate investment trusts in 2022, as compared with raised funds worth US\$ 29 billion to date.

The office market in top eight cities recorded transactions of 22.2 msf from July 2020 to December 2020, whereas new completions were recorded at 17.2 msf in the same period. In terms of share of sectoral occupiers, Information Technology (IT/ITeS) sector dominated with a 41% share in second half of 2020, followed by BSFI and Manufacturing sectors with 16% each, while Other Services and Co-working sectors recorded 17% and 10%, respectively.

The Government launched 10 key policies for the real estate sector:

- Real Estate Regulatory Act(RERA)
- Benami Transactions Act
- Boost to affordable housing construction
- Interest subsidy to home buyers
- Change in arbitration norms
- Service tax exemption
- Dividend Distribution Tax(DDT)exemption
- Goods and Services Tax(GST)
- De-monetisation
- PR for foreign investors

Investments/Developments

Indian real estate sector has witnessed high growth in the recent times with rise in demand for office as well as residential spaces. According to Colliers India, a property consultant, institutional investments in the Indian real estate sector are expected to increase by 4% to reach Rs. 36,500 crore (US\$ 5 billion) in 2021, driven by rising interest of investors towards capturing attractive valuations amid the pandemic. According to a recent report by Colliers India, private equity investments in Indian real estate reached US\$ 2.9 billion in the first half of 2021, which was a >2x increase from the first half in 2020.

Exports from SEZs reached Rs. 7.96 lakh crore (US\$ 113.0 billion) in FY20 and grew ~13.6% from Rs. 7.1 lakh crore (US\$ 100.3 billion) in FY19.

In July 2021, the Securities and Exchange Board of India lowered the minimum application value for Real Estate Investment Trusts from Rs. 50,000 (US\$ 685.28) to Rs. 10,000-15,000 (US\$ 137.06 - US\$ 205.59) to make the market more accessible to small and retail investors.

According to the data released by Department for Promotion of Industry and Internal Trade Policy (DPIIT), construction is the third-largest sector in terms of FDI inflow. FDI in the sector (including construction development & activities) stood at US\$ 50.8 billion between April 2000 and March 2021.

Government policies are helping the real estate sector prosper

Government of India along with the governments of respective States has taken several initiatives to encourage development in the sector. The Smart City Project, with a plan to build 100 smart cities, is a prime opportunity for real estate companies. Below are some of the other major Government initiatives:

- Under Union Budget 2021-22, tax deduction up to Rs. 1.5 lakh (US\$ 2069.89) on interest on housing loan, and tax holiday for affordable housing projects have been extended until the end of fiscal 2021-22.
- The Atmanirbhar Bharat 3.0 package announced by Finance Minister Mrs. Nirmala Sitharaman in November 2020 included income tax relief measures for real estate developers and homebuyers for primary purchase/sale of residential units of value (up to Rs. 2 crore (US\$ 271,450.60) from November 12, 2020 to June 30, 2021).
- In October 2020, the Ministry of Housing and Urban Affairs (MoHUA) launched an affordable rental housing complex portal.
- On October 27, 2020, the government announced the application of Real Estate (Regulation & Development) Act, 2016 in the union territory of Jammu & Kashmir. This has paved the way for any Indian citizen to buy non-agricultural land and property, as opposed to the eligibility of only local residents earlier.
- In order to revive around 1,600 stalled housing projects across top cities in the country, the Union Cabinet has approved the setting up of Rs. 25,000 crore (US\$ 3.58 billion) alternative investment fund (AIF).
- Government has created an Affordable Housing Fund (AHF) in the National Housing Bank (NHB) with an initial corpus of Rs. 10,000 crore (US\$ 1.43 billion) using priority sector lending short fall of banks/financial institutions for micro financing of the HFCs.
- As of January 31, 2021, India formally approved 425 SEZs, of which 265 were already operational. Most special economic zones (SEZs) are in the IT/ BPM sector.

Road Ahead

The Securities and Exchange Board of India (SEBI) has given its approval for the Real Estate Investment Trust (REIT) platform, which will allow all kind of investors to invest in the Indian real estate market. It would create an opportunity worth Rs. 1.25 trillion (US\$ 19.65 billion) in the Indian market in the coming years. Responding to an increasingly well-informed consumer base and bearing in mind the aspect of globalisation, Indian real estate developers have shifted gears and accepted fresh challenges. The most marked change has been the shift from family owned businesses to that of professionally managed ones. Real estate developers, in meeting the growing need for managing multiple projects across cities, are also investing in centralised processes to source material and organise manpower and hiring qualified professionals in areas like project management, architecture and engineering.

The residential sector is expected to grow significantly, with the central government aiming to build 20 million affordable houses in urban areas across the country by 2022, under the ambitious Pradhan Mantri Awas Yojana (PMAY) scheme of the Union Ministry of Housing and Urban Affairs. Expected growth in the number of housing units in urban areas will increase the demand for commercial and retail office space.

The current shortage of housing in urban areas is estimated to be ~10 million units. An additional 25 million units of affordable housing are required by 2030 to meet the growth in the country's urban population.

The growing flow of FDI in Indian real estate is encouraging increased transparency. Developers, in order to attract funding, have revamped their accounting and management systems to meet due diligence standards. Indian real estate is expected to attract a substantial amount of FDI in the next two years with US\$ 8 billion capital infusion by FY22.

- 2. Our business is heavily dependent on the performance of, and the prevailing conditions affecting, the real estate market in Ahmedabad and in India generally.***

Our real estate projects are located primarily in Ahmedabad. As on date of this Draft Prospectus, all our Completed and upcoming projects are located in Ahmedabad. For details of our projects, please refer chapter titled "Our Business" beginning on page no. 101 of this Draft Prospectus. As a result, our business, financial condition and results of operations have been and will continue to be heavily dependent on the performance of, and the prevailing conditions affecting, the real estate market in Ahmedabad and in India generally.

The real estate market in Ahmedabad and in India generally may be affected by various factors outside our control, including, among others:

- ☐ prevailing local economic, income and demographic conditions;
- ☐ availability of consumer financing (interest rates and eligibility criteria for loans);
- ☐ availability of and demand for properties comparable to those we develop;
- ☐ changes in governmental policies relating to zoning and land use;
- ☐ changes in applicable regulatory schemes; and

- the cyclical nature of demand for and supply of real estate.

These factors may result in fluctuations in real estate prices and the availability of land, which may negatively affect the demand for and the value of our projects, and may result in delays to or the cancellation of our projects, the cancellation of sales bookings or the termination of lease agreements. During times of crisis, market sentiment may be adversely affected, buyers may become cautious, rentals of office space may face downward pressure and sales or collections could be adversely affected which may have a material adverse effect on our financial condition and results of operations.

3. *Our operations are subject to high working capital requirements. Our inability to maintain an optimal level of working capital required for our business may impact our operations adversely.*

Our business requires significant amount of working capital and major portion of our working capital is utilized towards debtors and inventories. Our, Trade Receivables for the combined financial years June 30, 2022, and for combined Financial Years ending on March 31, 2022, 2021 and 2020 were Rs. 158.04 Lakhs, Rs. 178.48 Lakhs, Rs. 20.46 Lakhs and Rs. 104.63 Lakhs respectively and our inventories for the financial years June 30, 2022, and for Financial Year ending on March 31, 2022, 2021 and 2020 were Rs. 221.00 Lakhs, Rs. 221.00 Lakhs, Rs. 781.40 Lakhs and Rs. 261.35 respectively.

The results of operations of our business are dependent on our ability to effectively manage our inventory and trade receivables. To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if our management fails to accurately evaluate the terms and conditions with our customers, it may lead to write-offs bad debts and/ or delay in recoveries which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. A liquidity crunch may also result in increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

Our inability to maintain sufficient cash flow, credit facility and other sourcing of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. In the event we are not able to recover our dues from our trade receivables or sell our inventory, we may not be able to maintain our Sales level and thus adversely affecting our financial health.

4. *We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Offer. Further we have not identified any alternate source of financing the 'Objects of the Offer'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations, and financial performance.*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the objects of the Offer. We meet our capital requirements through our owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Offer or any shortfall in the Offer Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled "Objects of the Offer" beginning on page 73 of this Draft Prospectus.

Net cash from (used in) Financing activities	1413.02	25.68	(44.28)	(83.69)
Net Cash Flow	169.07	8.38	47.40	10.60

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, pay dividends, repay loans, and make new investments without raising finance from external resources. Such negative cash flows lead to a net decrease in cash and cash equivalents. Any negative cash flow in future could adversely affect our operations and financial conditions and the trading price of our Equity Shares. For further details, please refer “Financial Statements” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 145 and 169, respectively.

8. Our Statutory Auditor has included certain emphasis of matters in audited financials of our Company.

Our Statutory Auditor has included emphasis of matters in audited financials of our Company for March 31, 2022 and the restated financials for the Fiscal 2022, Fiscal 2021 and Fiscal 2020, in relation to assessments made by them on our operations and results, for the aforesaid financial periods. The company has taken following measures against emphasis of matter pointed out by the Statutory Auditor:

Sr. No.	Emphasis of Matters	Steps taken by the company

Further in the business of real estate this is the general practise to keep the premium stock in hand to sell off at far better price.

There can be no assurance that our Promoters and our Key Managerial Personnel will exercise their Rights as shareholders to the benefit and best interest of our Company.

9. We do not own our Registered Office from which we operate.

Our Registered office is owned by our Promoter- Shashikant Vedprakash Sharma and "No Objection Letter" has been obtained from him for using the premises as the registered office address for our company and no rent payment is being made by us for usage of premises. Although, we have complied with all the terms of such NOC, in the event there is any breach or violation or if our promoter decides to withdraw his NOC, we may be required to vacate the premises and we may be required to look for alternate premises, which we may not be able to find

at terms favourable to our Company. In such an event, it will adversely affect our business operations and our financial condition.

10. Our Company has not taken any insurance coverage which may protect us against certain operating hazards and from all losses and this may have an adverse impact on the financial conditions of the business.

Our Company has not taken any insurance cover at present. Hence we may not be able to protect ourselves from any damage or loss suffered by us. To the extent that we suffer any loss or damage, the operational results of the company could be adversely affected. The company does not maintain a directors and officers liability insurance policy for the directors or key managerial personnel of the Company.

11. We depend on our corporate logo that we may not be able to protect and/or maintain.

Our ability to market and sell our projects depends upon the recognition of our brand names and associated consumer goodwill. We have not yet applied trademark registration for our Corporate Logo. Consequently, we do not enjoy the statutory protections accorded to registered trademarks in India for our Company. There is no guarantee that the application for registration of our logo will be accepted in favour of the Company whenever applied. This may affect our ability to protect our trademark in the event of any infringement of our intellectual property. In the absence of such registrations, competitors and other companies may challenge the validity or scope of our intellectual property right over these brands or our corporate name or logo. As a result, we may be required to invest significant resources in developing new brands or names, which could materially and adversely affect our business, financial condition, results of operations and prospects. In addition to same, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business, financial condition, results of operations and prospects. For further details please refer to the chapter titled 'Government and Other Approvals' beginning on page no.185 of this Draft Prospectus.

12. Our top five suppliers contribute majority of our purchases. Any loss of business with one or more of them may adversely affect our business operations and profitability.

Our top 5 suppliers contributed approximately 95.93 % of our total purchases for the year ended March 31, 2022 based on Restated Financial Statements. However, our top suppliers may vary from period to period depending on the demand-supply mechanism and thus the supply process from these suppliers might change as we continue to seek more cost effective suppliers in normal course of business. Since our business is concentrated among relatively few significant suppliers, we could experience a reduction in our purchases and business operations if we lose one or more of these suppliers, including but not limited on account of any dispute or disqualification.

While we believe we have maintained good and long term relationships with our suppliers, there can be no assurance that we will continue to have such long term relationship with them. We cannot assure that we shall do the same quantum of business, or any business at all, with these customers, and loss of business with one or more of them may adversely affect our purchases and business operations.

13. We have referred to the data derived from internal Company reports and industry and government publications, publicly available information, and sources.

Unless stated otherwise, industry and market data used throughout this Draft Prospectus has been obtained or derived from internal Company reports and industry and government publications, publicly available information, and sources. Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed, and their reliability cannot be assured. Although, our Company believes that industry data used in this Draft Prospectus is reliable, it has not been independently verified. Further, the extent to which the industry and market data presented in this Draft Prospectus is meaningful depends on the reader's familiarity with and understanding of, the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

14. The continuing effect of the COVID-19 pandemic on our business and operations is highly uncertain and cannot be predicted.

An outbreak of COVID-19 was recognized as a pandemic by the WHO on March 11, 2020. In response to the COVID-19 outbreak, the governments of many countries, including India, have taken preventive or protective actions such as imposing country-wide lockdowns, as well as restrictions on travel and business operations. Since May 2020 many of these measures have been lifted. We proactively engaged with our clients to reassure them and to demonstrate our commitment to restart our operations and to build confidence in the safety protocols deployed at our office. If we do not respond appropriately to the pandemic, or if customers do not perceive our response to be adequate, we could suffer damage to our reputation and our brand, which could adversely affect our business in the future.

Further, the lockdown was again imposed by the government in some parts of India during April 2021, which was partially relaxed in June 2021, during this lockdown although we have continued with our business, the execution of our business operations was delayed by few weeks.

We cannot predict the degree to, or the time period over, which our business will be affected by the COVID-19 outbreak. For example, this pandemic could necessitate further lockdowns, resulting in significant additional effects on our revenue, financial condition and results of operations. There are numerous uncertainties associated with the COVID-19 outbreak, including the number of individuals who will become infected, availability of a vaccine or a cure that mitigates the effect of the virus, the extent of the protective and preventative measures imposed by governments and whether the virus' impact will be seasonal, among others. Consequently, there may be adverse effects of this pandemic on our short-term business operations and our financial results may be impacted.

15. We have not made any dividend payments in the past and our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.

In the past, we have not made dividend payments to the shareholders of our Company. The amount of our future dividend payments, if any, will depend upon various factors including our future earnings, financial condition, cash flows and requirement to fund operations and expansion of the business. There can be no assurance that we will be able to declare dividends. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors. For further details, see “Dividend Policy” on page 144.

16. We require certain statutory and regulatory permits, approvals and licenses in order to operate our real estate business and our ordinary course of our business. If we are unable to apply or obtain or renew or maintain any of such statutory or regulatory permits or approvals, it may have a material adverse effect on our business.

We require certain statutory and regulatory permits, approvals, licenses, registrations and permissions to operate our business. Our projects are at various stages of development/completion, and we have obtained approvals from statutory/ regulatory authorities as are required at the various stages of development. We are also in the process of making applications to certain statutory/regulatory authorities for the approvals that will be required further. We will be required to obtain change in land use permissions, including from agricultural use to non-agricultural use and in certain cases, requisite environmental consents, fire safety clearances, commencement, completion and occupation certificates, registration under Contract Labour regulations etc. from the relevant government authorities. The development plans and use of the projects may be subject to further changes, depending on various factors such as prevailing economic conditions, preferences of our customers and laws and regulations applicable to us from time to time.

We believe that we have complied considerably with such laws and regulations, as are applicable to our projects however, statutory/regulatory authorities may allege non-compliance and we cannot assure you that we will not be subjected to any such regulatory action in the future, including penalties, seizure of land and other civil or criminal proceedings. Many of these approvals are granted for fixed periods of time and need renewal from time to time. While, we also believe that we will be able to obtain or renew the necessary permits and approvals as and

when required; there can be no assurance that the relevant authorities will issue/renew any or all requisite permits or approvals in the time-frame anticipated by us, or at all. Failure by us to apply in time, obtain, renew or maintain the required permits, licenses or approvals or the cancellation, suspension, delay in issuance or revocation of any of the permits, licenses or approvals may result in the interruption of our operations or delay or prevent the development of our existing/future projects and may have a material adverse effect on our business, financial condition and results of operations. For more information please see the section titled “*Key Industry Regulations and Policies*” and “*Government & Other Approvals*” appearing on page 108 and 185, respectively of this Draft Prospectus.

17. We may not be able to identify suitable project sites or enter into Development Agreements for land development rights or and acquire suitable land at reasonable cost or favourable terms which may adversely affect our business and results of operations.

Our performance is dependent on our ability to identify the suitable projects sites or to enter into Development Agreements for acquiring land development rights or and acquire suitable land at reasonable cost and on favourable terms. Once a potential development site has been identified, site visits and feasibility studies/surveys are undertaken, which include detailed analyses of factors such as regional demographics, gap analysis of current property development initiatives and market needs, and market trends. Such information may not be accurate, complete or current. Any decision for a project site which is based on inaccurate, incomplete or outdated information or any change in circumstances may result in certain risks and liabilities associated with the acquisition of such land, which could adversely affect our business, financial condition and results of operations. Further, upon acquiring ownership or development rights over suitable sites, there can be other factors affecting our business that may be beyond our control like availability of suitable land, location, the willingness of landowners to assign land development rights on terms acceptable, the availability and cost of financing, encumbrances on targeted project sites, government directives on land use, obtaining the necessary permits and approvals for land development, etc. Such factors may impede our efforts to acquire development rights on acceptable/suitable terms and conditions. This may cause us to modify, delay or abandon projects, which could adversely affect our business and results of operations

18. The success of our residential real estate development business is dependent on our ability to anticipate and respond to latest trends and consumer requirements.

We believe that our ability to understand the preferences of our customers and to accordingly develop projects that suit their tastes and preferences plays a major role in our successful sales of our residential and commercial units. The growing disposable income of India’s middle and upper income classes has led to a change in popular lifestyle resulting in substantial changes in the nature of their demands. The range of amenities now demanded and expected by consumers include those that have historically been uncommon in India’s residential real estate market such as gardens, community space, security systems, playgrounds, fitness centres, tennis courts, swimming pools, etc. As customers continue to seek better housing and better amenities as part of their residential needs, we are required to continue to focus on the development of quality residential accommodation with various amenities. We also intend to continue to provide quality facilities even in our middle-income housing projects. Our inability to provide customers with certain amenities or our failure to continually anticipate and respond to customer needs may result in our consumers preferring our competition, who may be providing better amenities. If our consumers perceive that our amenities or quality is not as per the current trends, our brand image may be adversely affected resulting in lower sales and thus adversely impacting our financial condition.

19. Our business is subject to various operating risks at our construction sites, the occurrence of which can affect our results of operations and consequently, financial condition of our Company.

Our business operations are subject to operating risks, such as breakdown or failure of equipment’s used at the project sites, weather conditions, interruption in power supply, shortage of consumables, performance below expected levels of output or efficiency, natural disasters, obsolescence, labour disputes, accidents, our inability to respond to technological advancements and emerging realty industry standards and practices along with the need to comply with the directives of relevant government authorities. The occurrence of these risks, if any, could

result in stoppage of work along with penalty in monetary terms. Any stoppage of work may result in a delay in completing our projects leading to failure to deliver the real estate to the customers within the time frame.

Further, any of the aforesaid risks may also result in our contractors compromising on the quality standards in order to finish the work within the given timelines, which may in turn affect our reputation and ability to attract new customers. If any of the above were to occur, it would significantly affect our operating results, and the slowdown / shutdown of business operations may have a material adverse effect on our business operations and financial conditions.

20. If we suffer a large uninsured loss or if we suffer an insured loss that significantly exceeds our insurance coverage, our financial condition and results of operations may be adversely affected.

Our business could suffer damage from fire, natural calamities, misappropriation / burglary or other causes, resulting in losses, which may not be compensated by insurance as we have not taken any insurance. There can be no assurance that the terms of our insurance policies which we will take in future will be adequate to cover any damage or loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. Further, we will have to renew the insurance policies from time to time and in the event, we fail to renew the insurance policies within the time period prescribed in the respective insurance policies or not obtain at all, we may face significant uninsured losses. If we suffer a large uninsured loss or if any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be adversely affected.

21. If we fail to maintain an effective system of internal controls, we may not be able to successfully manage or accurately report our financial risks.

Effective internal controls are necessary for us to prepare reliable financial reports and avoid fraud. Moreover, any internal controls that we may implement or our level of compliance with such controls, may deteriorate over time, due to evolving business conditions. There can be no assurance that additional deficiencies in our internal controls will not arise in the future or that we will be able to implement and continue to maintain adequate measures to rectify or mitigate any such deficiencies in our internal controls.

22. Our operations and our workforce are exposed to various hazards and risks that could result in material liabilities, increased expenses and diminished revenues.

We conduct internal assessment pertaining to a particular area of land, prior to the acquisition of the same and attempt to assess its construction and development potential to the best possible ability. However, there are certain unanticipated or unforeseen risks that may arise in the course of property development due to adverse weather and geological conditions such as storms, hurricanes, lightning, floods, landslides and earthquakes. These weather conditions may expose our contracted workforce to various illnesses, de-hydration and other health hazards. Any stoppage of work on account of health hazards of our workforce may force us to re-schedule our timelines resulting in cost over-runs.

We endeavour to care for our employees and workforce and thus, we may plan to obtain a specific insurance policy for our employees and workforce. However, it may not be able to cover all possible risks and any expenses that we may have to incur beyond such covered risk, may burden our cash flows and financial condition. Additionally, our operations are subject to hazards inherent in providing architectural and construction services, such as the risk of equipment failure, work accidents, fire or explosion. Many of these hazards can cause injury and loss of life, severe damage to and destruction of property and equipment and environmental damage. We cannot assure you that we will not bear any liability as a result of these hazards.

- 23. *Our Promoters, together with our Promoter Group, will continue to retain majority shareholding in our Company after the proposed Initial Public Issue, which will allow them to exercise significant control over us. We cannot assure you that our Promoters and Promoter Group members will always act in the best interests of the Company.***

After the completion of our Initial Public Issue, our Promoters, along with our Promoter Group members, will hold, approximately 66.66 % of our post issue paid up equity capital of our Company. As a result, our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board and determine matters requiring shareholder approval or approval of our Board. Our Promoters may take or block actions with respect to our business, which may conflict with our interests or the interests of our minority shareholder. By exercising their control, our Promoters could delay, defer or cause a change of our control or a change in our capital structure, delay, defer or cause a merger, consolidation, takeover or other business combination involving us, discourage or encourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of our Company. We cannot assure you that our Promoters and Promoter Group members will always act in our Company's or your best interests. For further details, please refer to the chapters titled "*Capital Structure*" and "*Our Promoter, Promoter Group and Group Companies*", beginning on page no. 63, 135 and 142 respectively, of this Draft Prospectus.

- 24. *Any changes in regulations or applicable government incentives would adversely affect the Company's operations and growth prospects.***

Our Company is also subject to various regulations. Our Company's business and prospects could be adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for its operations or that compliance issues will not be raised in respect of its operations, either of which would have a material adverse effect on the Company's operations and financial results.

Our operations currently benefit from certain direct tax incentives. In the event we are unable to continue to benefit from such tax benefits, or other taxes applicable to us increase, our financial condition and results of operations may be adversely affected. Taxes and other levies imposed by the GoI or State Governments that affect our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. Imposition of any other charges by the Central and the State Governments or increases in existing charges may adversely affect our results of operations. Further, the central and state tax scheme in India is subject to change from time to time. Any adverse change in Indian tax rules and regulations or policy may have an adverse effect on our business, financial condition and results of operations.

- 25. *We have not entered into any long-term contracts with any of our contractors & service providers and orders are not backed-up by a letter of credit facility.***

We do not have any long-term contracts with our contractors & service providers and any change in the selling and/ or buying pattern could adversely affect the business of our Company. Although, we have satisfactory business relations with our contractors & service providers and may receive continued business from them in the future, there is no certainty that the same will continue in the years to come and may affect our profitability.

- 26. *We may depend on various sub-contractors or agencies to construct and develop our projects.***

Our construction projects require the expertise of various professional agencies such as construction contractors, architects structural designer contractors, plumbers, etc. In order to ensure completion of our projects we enter or may enter into agreements with the various subcontractors and agencies, which determine their scope of work and other terms and conditions. Thus, we primarily rely on these third parties for the implementation of such work which forms a crucial part or crucial base of our projects. Accordingly, the timing and quality of construction, or part thereof, partly depends on the availability and skill of such sub-contractor and agencies. Although we believe that our relationships with third party sub-contractors and agencies would be cordial, we cannot assure you that

such sub-contractors/ agencies will continue to perform their duties and obligations in a cordial manner or continue to be available at reasonable rates and in the areas in which we conduct or may conduct our operations. Any delay by such sub-contractors/ agencies in performing their duties or failure by us to procure sub-contractors/agencies at the correct time may affect our project timelines and cause unforeseen delays.

27. *The government may exercise rights of compulsory purchase or eminent domain over our lands.*

The Right to Fair Compensation and Transparency in Rehabilitation and Resettlement Act 2013 allows the central and state governments to exercise rights of compulsory purchase, which if used in respect of our land, could require us to relinquish land with minimal compensation and no right of appeal. The likelihood of such actions may increase as the central and state governments seek to acquire land for the development of infrastructure projects such as roads, airports and railways. Any such action in respect of one or more of our ongoing, forthcoming or upcoming projects could adversely affect our business.

28. *Significant increases in prices of, or shortages of, or delay or disruption in supply of labour and key building materials could affect our estimated construction cost and timelines resulting in cost overruns or less profit.*

As our Company is engaged into construction of residential and commercial projects, our business would adversely be affected by variation in availability, cost and quality of raw materials and labour. We procure building materials for our projects, such as steel, cement, flooring products, hardware, bitumen, sand and aggregates, doors and windows, bathroom fixtures and other interior fittings, from third-party suppliers. The prices and supply of basic building materials and other raw materials depend on factors outside our control, including cost of their raw materials, general economic conditions, competition, production costs and levels, transportation costs indirect taxes and import duties. Our ability to develop and construct projects profitably is dependent on our ability to obtain adequate and timely supply of building materials within our estimated budget. As we source our building materials from third parties, our supply chain may be interrupted by circumstances beyond our control. Poor quality roads and other transportation-related infrastructure problems, unfavorable weather and road accidents may also disrupt the transportation of supplies.

Prices of certain building materials and, in particular, cement and steel prices, are susceptible to rapid increases. Further, we operate in a labor-intensive industry and if we or our contractors are unable to negotiate with the labour or their sub-contractors, it could result in work stoppages or increased operating costs as a result of higher than anticipated wages or benefits. In addition, it may be difficult to procure the required labour for ongoing or planned projects.

During periods of shortages in the supply of building materials or labour, we may not be able to complete projects according to our previously determined time frames, at our previously estimated project costs, or at all, which may adversely affect our results of operations and reputation. In addition, during periods where the prices of building materials or labour significantly increase, we may not be able to pass these price increases on to our customers, which could reduce or eliminate the profits we intend to gain from our projects. These factors could adversely affect our business, results of operations and cash flows.

29. *Changes in market conditions between the time that we acquire land, enter into development agreements, construct and ultimately sale, may affect our ability to achieve the estimated profits out of our projects or at all, which could adversely affect our revenues and earnings.*

There might be a time gap between our acquisition of land or development rights to the land and the development and sale of our projects, during which, we may be exposed to risks of fluctuation in market value of land. Any downward changes in the market value of land could have a material adverse effect on our business. Our ability to mitigate the risk of any market value fluctuations is limited by the illiquid nature of real estate investments. We could be adversely affected if the market conditions deteriorate or if we purchase land at higher prices and the value of the land declines subsequently. As a result, we may experience fluctuations in property values over time which in turn may adversely affect our business, financial condition and results of operations.

- 30. *Our continued success depends upon availability of adequate labour on timely basis. Any work stoppages or other labour related problems could adversely affect our business.***

We require skilled and unskilled labour for successful running of our operations. Any shortage of adequate labour due to any labour related issues may affect smooth running of our operations and we may not be able to meet our project timelines. We maintain cordial relationship with the labour and have not encountered any work stoppages and other labour problems so far. We are unable to assure you that we will not experience disruptions to our operations due to disputes or other problems with our work force, which may lead to strikes, lock - outs or increased wage demands. Such issues could have an adverse effect on our business, and results of operations.

- 31. *Ineffective execution of marketing programs and reduced marketing expenditure could have an adverse effect on our sales.***

Being in the real estate business, our primary factors in determining the consumer buying decisions in the real estate business includes customer confidence, location of the property, price points, timely delivery of the property, designs together with the level and quality of customer service being offered within the property. The ability to differentiate our property from our competitors by its branding, marketing and advertising programs is an important factor in attracting the customers. As a result, from time to time we will be undertaking brand building exercise and marketing programs to enhance our brand visibility. If these programs are ineffectively executed or the level of support for them is reduced, it could affect our ability to attract customers. Further, we cannot assure you that we will be able to accurately estimate our marketing expenditure for our operations. In case our marketing expenses are lesser than market standards, our marketing programs may be perceived ineffective. However, if our marketing expenses are higher than the market standards, it may adversely affect our income and results of operations.

- 32. *We have not entered into any non-disclosure or confidentiality agreements with our employees or other intermediaries.***

We operate in a highly competitive industry our ability to succeed depends largely on the ability and skill of the workers/ contractors/ sub-contractors/ service providers & other intermediaries to create new and creative designs for developing the land. Although, we have good terms with our employees/ workers/ contractors/ sub-contractors/ service providers & other intermediaries, we cannot assure that we will have continued relation with them. Although, we believe that our designs may not be compromised, we cannot assure the same as we have not entered any non-disclosure or other confidentiality agreements with them.

- 33. *The business and future results of operations of our Company may be adversely affected if we incur any time or cost overruns.***

Our Company's business plans are subject to various risks including time and cost overruns and delays in obtaining regulatory approvals. Further, there could also be unexpected delays and cost overrun in relation to our projected / future projects and thus, no assurance can be given to complete them on scheduled time and within the expected budget. If such changes take place during the course of development of any of our projects, then our projections regarding the costs, revenues, return on the project, profitability as well as our operations will be adversely affected.

- 34. *Our Company may require additional capital resources to achieve our expansion plans.***

The rate of our expansion will depend to an extent on the availability of adequate debt and equity capital. Further, the actual expenditure incurred may be higher than current estimates owing to but not limited to, implementation delays or cost overruns. We may, therefore, primarily try to meet such cost overruns through our internal generations and in case if the same is not adequate, we may have to raise additional funds by way of additional term debt from banks/ financial institutions and unsecured loans, which may have an adverse effect on our business and results of operations.

35. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively or at all. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

36. *Our success depends largely on our senior management and our ability to attract and retain our key personnel.*

Our success is dependent on our management team whose loss could seriously impair the ability to continue to manage and expand business efficiently. Our success largely depends on the continued services and performance of our management and other key personnel. The loss of service of the Key Managerial Personnel and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. Further, the loss of any of the senior management or other key personnel may adversely affect the operations, finances and profitability of our Company. Any failure or inability of our Company to efficiently retain and manage its human resources would adversely affect our ability to expand our business.

37. *We are dependent on our Promoter, our senior management, directors and key personnel of our Company for success whose loss could seriously impair the ability to continue to manage and expand business efficiently.*

Our Promoter, Directors, senior management and key managerial personnel collectively have many years of experience in the industry and are difficult to replace. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. For further details of our Directors and key managerial personnel, please refer to Section “***Our Management***” on page 123 of this Draft Prospectus. Our success largely depends on the continued services and performance of our management and other key personnel. The loss of service of the Promoters and other senior management could seriously impair the ability to continue to manage and expand the business efficiently.

Further, the loss of any of the senior management or other key personnel may adversely affect the operations, finances and profitability of our Company. Any failure or inability of our Company to efficiently retain and manage its human resources would adversely affect our ability to implement new projects and expand our business.

38. *Our Board of Directors and management may change our operating policies and strategies without prior notice or shareholder approval.*

Our Board of Directors and management has the authority to modify certain of our operating policies and strategies without prior notice (except as required by law) and without shareholder approval. We cannot predict the effect that any changes to our current operating policies or strategies would have on our business, operating results and the price of our Equity Shares.

39. *In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and key managerial personnel are interested in our Company to the extent of their shareholding in our Company.*

Our Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and Key Managerial Personnel may also be interested to the extent of their shareholding in our Company. For further information, see “***Capital Structure***” and “***Our Management***” on page nos. 63 and 123, respectively, of this Draft Prospectus.

40. *Delay in raising funds from the IPO could adversely impact the implementation schedule.*

The proposed expansion, as detailed in the section titled "Objects of the Issue" is to be mainly funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute the expansion process within the given timeframe, or within the costs as originally estimated by us. Any time overrun, or cost overrun may adversely affect our growth plans and profitability.

41. *The requirements of being a public listed company may strain our resources and impose additional requirements and disclosures.*

We have no experience as a listed company and have not been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance, and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI (LODR) Regulations, which require us to file audited / unaudited reports periodically with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies.

As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, for which significant resources and management overview will be required. As a result, management's attention may be diverted from other business concerns, which could adversely affect our business, prospects, financial condition, and results of operations. Further, we may need to hire additional legal and accounting staff with appropriate and relevant experience and technical accounting knowledge and we cannot assure you that we will be able to do so in a timely manner or at all.

42. *The Company has not appointed any independent agency for the appraisal of the proposed Project.*

The Project, for which we intend to use our Issue proceeds as mentioned in the objects of the Issue, has not been appraised by any bank or financial institution. The total cost of Project is our own estimates based on current conditions and are subject to changes in external circumstances or costs. Our estimates for total cost of Project has been based on various quotations received by us from different suppliers and our internal estimates and which may exceed which may require us to reschedule our Project

43. *There is no monitoring agency appointed by our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.*

As per SEBI (ICDR) Regulations, 2018, as amended from time to time, appointment of monitoring agency is required only for Issue size above Rs. 10,000 Lakhs. Since this Issue Size is less than Rs. 10,000 Lakhs, our Company has not appointed any monitoring agency for this Issue. Hence, we have not appointed a monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds.

Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the BSE and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

44. *We propose to utilize the Net Proceeds for purposes identified in the section titled "Objects of the Issue" in this Draft Prospectus. Any variation in the utilization of the Net Proceeds as disclosed in this Draft Prospectus shall be subject to certain compliance requirements, including prior Shareholders' approval.*

We propose to utilize the Net Proceeds for purposes identified in the section titled "*Objects of the Issue*" beginning on page no. 73 of this Draft Prospectus. The manner deployment and allocation of such funds is entirely at the discretion of our management and our Board, subject to compliance with the necessary provisions of the Companies Act.

In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Draft Prospectus without obtaining the shareholder's approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the Shareholder's approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholder's approval may adversely affect our business or operations. Further, our Promoter or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the objects of the Issue as prescribed in the SEBI (ICDR) Regulations, 2018, as amended from time to time. If our Shareholder's exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition, and may adversely affect our business and results of operations.

RISKS RELATED TO OUR EQUITY SHARES AND OFFER

45. Investors bear the risk of fluctuations in the price of Equity Shares and there can be no assurance that a liquid market for our Equity Shares will develop following the listing of our Equity Shares on the Stock Exchanges.

There has been no public market for our Equity Shares prior to the Offer. The price may not necessarily be indicative of the market price of our Equity Shares after the Offer is completed. You may not be able to re-sell your Equity Shares at or above the Offer price and may as a result lose all or part of your investment.

Our Equity Shares are expected to trade on SME Platform of BSE after the Offer, but there can be no assurance that active trading in our Equity Shares will develop after the Offer, or if such trading develops that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading in our Equity Shares.

The price at which our Equity Shares will trade at after the Offer will be determined by the marketplace and may be influenced by many factors, including:

- Our financial condition, results of operations and cash flows;
- The history of and prospects for our business;
- An assessment of our management, our past and present operations, and the prospects for as well as timing of our future revenues and cost structures; and
- The valuation of publicly traded companies that are engaged in business activities similar to ours;
- quarterly variations in our results of operations;
- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
- a change in research analysts' recommendations;
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations, or capital commitments;
- announcements of significant claims or proceedings against us;
- new laws and government regulations that directly or indirectly affect our business;
- additions or departures of Key Management Personnel;
- changes in the interest rates;
- fluctuations in stock market prices and volume; and general economic conditions.

The Indian stock markets have, from time to time, experienced significant price and volume fluctuations that have affected market prices for the securities of Indian companies. As a result, investors in our Equity Shares may experience a decrease in the value of our Equity Shares regardless of our financial performance or prospects.

46. *Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

47. *Any future issuance of Equity Shares by us or sales of Equity Shares by the Promoters could adversely affect the trading price of our Equity Shares and in the case of the issuance of Equity Shares by us result in the dilution of our then current shareholders.*

As disclosed in “Capital Structure” on page 63, an aggregate of 20% of our fully diluted post-Offer capital held by our Promoters shall be considered as minimum Promoters’ contribution and locked in for a period of three years and the balance Equity Shares held by the Promoters will be locked-in for one year from the date of Allotment. Except for the customary lock-in on our ability to issue equity or equity-linked securities discussed in “Capital Structure” on page 63, there is no restriction on our ability to issue Equity Shares. As such, there can be no assurance that our Company will not issue additional Equity Shares after the lock-in period expires or that the Promoters will not sell, pledge or encumber their Equity Shares after the lock-in periods expire. Future issuances of Equity Shares or convertible securities and the sale of the underlying Equity Shares could dilute the holdings of our Shareholders and adversely affect the trading price of our Equity Shares. Such securities may also be issued at prices below the then trading price of our Equity Shares or the Issue Price. Sales of Equity Shares by the Promoters could also adversely affect the trading price of our Equity Shares.

48. *You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.*

Previously, any gain realized on the sale of listed equity shares on or before March 31, 2018 on a stock exchange held for more than 12 months was not subject to long term capital gains tax in India if Securities Transaction Tax (“STT”) was paid on the sale transaction and additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares on or after October 1, 2004, except in the case of such acquisitions of Equity Shares which are not subject to STT, as notified by the Central Government under notification no. 43/2017/F. No. 370142/09/2017-TPL on June 5, 2017. However, the Finance Act, 2018, now seeks to tax on such long-term capital gains exceeding ₹ 100,000 arising from sale of equity shares on or after April 1, 2018, while continuing to exempt the unrealized capital gains earned up to January 31, 2018 on such Equity Shares. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold.

Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

49. *QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.*

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their applications (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting an application. Retail Individual Bidders can revise their applications during the Offer Period and withdraw their applications until Offer Closing Date. While we are required to complete Allotment, listing and commencement of trading pursuant to the Offer within six Working Days from the Offer Closing Date, events affecting the Bidders’ decision to invest in our Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows and financial condition may arise between the date of submission of the Bid and Allotment, listing and commencement of

trading. We may complete the Allotment, listing and commencement of trading of our Equity Shares even if such events occur and such events may limit the Bidders' ability to sell our Equity Shares Allotted pursuant to the Offer or may cause the trading price of our Equity Shares to decline on listing.

50. Political, economic, or other factors that are beyond our control may have an adverse effect on our business and results of operations.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity, and the price of our Equity Shares.

Our performance, growth and market price of our Equity Shares are and will be dependent on the health of the Indian economy. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional, and global economies. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production. Consequently, any future slowdown in the Indian economy could harm our business, results of operations, cash flows and financial condition. Also, a change in the Government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

51. Changing laws, rules and regulations and legal uncertainties in India, including adverse application of corporate and tax laws, may adversely affect our business and financial results.

Our business and financial performance could be adversely affected by any change in laws or interpretations of existing laws, or the promulgation of new laws, rules and regulations applicable to us and our business including those relating to the industry in which we operate. There can be no assurance that the Government of India or state governments will not introduce new laws, regulations and policies which will require us to obtain additional approvals and licenses or impose onerous requirements on our business.

For example, the new Companies Act, 2013 contains significant changes to Indian company law, including in relation to the issue of capital by companies, disclosures in offer documents, related party transactions, corporate governance, audit matters, internal controls, shareholder class actions, restrictions on the number of layers of subsidiaries, prohibitions on loans to directors, insider trading and restrictions on directors and key management personnel from engaging in forward dealing. Moreover, effective April 1, 2014, companies exceeding certain net worth, revenue or profit thresholds are required to spend at least 2% of average net profits from the immediately preceding three financial years on corporate social responsibility projects, failing which an explanation is required to be provided in such companies' annual reports.

The Ministry of Finance has issued a notification dated March 31, 2015 notifying ICDS which creates a new framework for the computation of taxable income. Subsequently, the Ministry of Finance, through a press release dated July 6, 2016, deferred the applicability of ICDS from April 1, 2015 to April 1, 2016 and is applicable from FY 2017 onwards and will have impact on computation of taxable income for FY 2017 onwards. ICDS deviates in several respects from concepts that are followed under general accounting standards, including Indian GAAP and Ind AS. Such specific standards for computation of income taxes in India are relatively new, and the impact of the ICDS on our results of operations and financial condition is uncertain. There can be no assurance that the

adoption of ICDS will not adversely affect our business, results of operations and financial condition going forward.

The Government of India has recently approved the adoption of a comprehensive national goods and services tax (“GST”) regime that will combine taxes and levies by the Central and State Governments into a unified rate structure, with effect from July 1, 2017. Given the limited availability of information in the public domain concerning the GST, we cannot provide any assurance as to this or any other aspect of the tax regime following implementation of the GST. The implementation of this rationalized tax structure may be affected by any disagreement between certain state governments, which may create uncertainty. Any future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. If, because of a particular tax risk materializing, the tax costs associated with certain transactions are greater than anticipated, it could affect the profitability of such transactions.

We have not determined the effect of such legislations on our business. In addition, unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

52. Investors may have difficulty enforcing foreign judgments against us or our management.

We are a limited liability company incorporated under the laws of India. All our directors and executive officers are residents of India and all our assets and such persons are located in India. As a result, it may not be possible for investors to effect service of process upon us or such persons outside of India, or to enforce judgments obtained against such parties outside of India.

Recognition and enforcement of foreign judgments is provided for under Section 13 of the Code of Civil Procedure, 1908 (“CPC”) on a statutory basis. Section 13 of the CPC provides that foreign judgments shall be conclusive regarding any matter directly adjudicated upon, except: (i) where the judgment has not been pronounced by a court of competent jurisdiction; (ii) where the judgment has not been given on the merits of the case; (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or a refusal to recognise the law of India in cases to which such law is applicable; (iv) where the proceedings in which the judgment was obtained were opposed to natural justice; (v) where the judgment has been obtained by fraud; and (vi) where the judgment sustains a claim founded on a breach of any law then in force in India. Under the CPC, a court in India shall, upon the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record.

However, under the CPC, such presumption may be displaced by proving that the court did not have jurisdiction. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. Section 44A of the CPC provides that where a foreign judgment has been rendered by a superior court, within the meaning of that Section, in any country or territory outside of India which the Central Government has by notification declared to be in a reciprocating territory, it may be enforced in India by proceedings in execution as if the judgment had been rendered by the relevant court in India. However, Section 44A of the CPC is applicable only to monetary decrees not being of the same nature as amounts payable in respect of taxes, other charges of a like nature or of a fine or other penalty.

The United States and India do not currently have a treaty providing for reciprocal recognition and enforcement of judgments, other than arbitration awards, in civil and commercial matters. Therefore, a final judgment for the payment of money rendered by any federal or state court in the United States on civil liability, whether or not

predicated solely upon the federal securities laws of the United States, would not be enforceable in India. However, the party in whose favour such final judgment is rendered may bring a new suit in a competent court in India based on a final judgment that has been obtained in the United States. The suit must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India.

It is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India. Furthermore, it is unlikely that an Indian court would enforce a foreign judgment if that court were of the view that the amount of damages awarded was excessive or inconsistent with public policy or Indian practice. It is uncertain as to whether an Indian court would enforce foreign judgments that would contravene or violate Indian law. However, a party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI under the FEMA to execute such a judgment or to repatriate any amount recovered.

- 53. *The Equity Shares have never been publicly traded, and, after the Offer, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Offer Price, or at all.***

Prior to the Offer, there has been no public market for the Equity Shares, and an active trading market on the SME Platform of BSE may not develop or be sustained after the Offer. Our Company and the Lead Manager have appointed SVCM Securities Private Limited as Designated Market Maker for the Equity Shares of our Company. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Offer Price of the Equity Shares may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in the SME Platform of BSE, securities markets in other jurisdictions, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

EXTERNAL RISK FACTORS

- 54. *Instability in financial markets could materially and adversely affect our results of operations and financial condition.***

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets.

The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE's benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

- 55. *Conditions in the Indian securities market and stock exchanges may affect the price and liquidity of our Equity Shares.***

Indian stock exchanges, which are smaller and more volatile than stock markets in developed economies, have in the past, experienced problems which have affected the prices and liquidity of listed securities of Indian companies. These problems include temporary exchange closures to manage extreme market volatility, broker

defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading, limited price movements and restricted margin requirements. Further, disputes have occurred on occasion between listed companies and the Indian stock exchanges and other regulatory bodies that, in some cases, have had a negative effect on market sentiment. If similar problems occur in the future, the market price and liquidity of the Equity Shares could be adversely affected. Further, a closure of, or trading stoppage on, either of the Stock Exchanges could adversely affect the trading price of our Equity Shares.

56. Any downturn in the macroeconomic environment in India could adversely affect our business, results of operations, cash flows and financial condition.

India is our key market. For Fiscal 2021, entire of our Company's revenue from operations was from India. In addition, an increase in India's trade deficit, a downgrading in India's sovereign debt rating or a decline in India's foreign exchange reserves could increase interest rates and adversely affect liquidity, which could adversely affect the Indian economy and our business, results of operations, cash flows and financial condition.

57. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, in the jurisdictions in which we operate may adversely affect our business and results of operations.

Our business is subject to various laws and regulations, which are evolving and subject to change. For details, see "Key Industrial Regulations and Policies in India" on page 108. We are also subject to corporate, taxation and other laws in effect in India, which require continued monitoring and compliance. These laws and regulations and the way in which they are implemented and enforced may change. There can be no assurance that future legislative or regulatory changes will not have any adverse effect on our business, results of operations, cash flows and financial condition.

58. Natural disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19, acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India, or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations.

59. Significant differences exist between Ind AS and Indian GAAP and other accounting principles, such as IFRS and US GAAP, which may be material to investors' assessments of our financial condition, result of operations and cash flows.

Our financial statements for Fiscals 2019, 2018 and 2017 included in this Draft Prospectus are prepared and presented in conformity with Indian GAAP and restated in accordance with the requirements the SEBI (ICDR) Regulations and the Guidance Note on "Reports in Company Prospectuses (Revised 2016)" issued by the ICAI. Ind AS differs from Indian GAAP and other accounting principles with which prospective investors may be familiar in other countries, such as IFRS and U.S. GAAP. Accordingly, the degree to which the Financial Statements included in this Draft Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Persons not familiar with Indian accounting practices should limit their reliance on the financial disclosures presented in this Draft Prospectus.

60. Increases in interest rates may affect the results of operations.

Currently, the company does not have any debt, but it cannot be assured that it will not incur indebtedness with a floating rate of interest in the future. As such, increases in interest rates may adversely affect the cost of future borrowings.

The company has not entered into any interest rate hedging or swaps transactions. It cannot be assured to the prospective investor that the company, if it does not enter into any interest rate hedging or swap transactions, will be able to do so on commercially reasonable terms, or that any of such agreements will protect the company fully against interest rate risk. Any increase in interest expense may have an adverse impact on its business, prospects, financial condition and results of operations.

It would create an opportunity worth Rs. 1.25 trillion (US\$ 19.65 billion) in the Indian market in the coming years. Responding to an increasingly well-informed consumer base and bearing in mind the aspect of globalisation, Indian real estate developers have shifted gears and accepted fresh challenges. The most marked change has been the shift from family owned businesses to that of professionally managed ones. Real estate developers, in meeting the growing need for managing multiple projects across cities, are also investing in centralised processes to source material and organise manpower and hiring qualified professionals in areas like project management, architecture and engineering.

The residential sector is expected to grow significantly, with the central government aiming to build 20 million affordable houses in urban areas across the country by 2022, under the ambitious Pradhan Mantri Awas Yojana (PMAY) scheme of the Union Ministry of Housing and Urban Affairs. Expected growth in the number of housing units in urban areas will increase the demand for commercial and retail office space.

The growing flow of FDI in Indian real estate is encouraging increased transparency. Developers, in order to attract funding, have revamped their accounting and management systems to meet due diligence standards. Indian real estate is expected to attract a substantial amount of FDI in the next two years with US\$ 8 billion capital infusion by FY22.

We follow the model of selling units during project development.

Completion and Transfer

Our execution team, in coordination with the architecture team, completes the processes required to achieve the necessary compliance and statutory certifications for each site including with respect to completion, occupation, fire safety, waste disposal, rain water harvesting and recycling of water.

We convey the title of the properties to the customers upon the completion of the project, and closure of the sales process as per applicable laws. We ensure the entire consideration is paid to us prior to the transfer of title. After completion of any project, we generally hand over the day-to-day management and control of the project to the association of apartment unit purchasers. In certain cases, we also negotiate and arrange for annual maintenance contracts with equipment suppliers for rotation and mechanical instruments and machinery at each property, including elevators.

Pricing

The prices of our units are determined and driven principally by market forces of supply and demand, and we normally conduct the pricing exercise prior to pre-launch marketing of a project, and review the prices reached by considering the factors on a periodic basis. We price our properties by reference to market rates for similar types of properties in their locality. The prices of our properties will therefore depend on the location, number, area and mix of properties we sell throughout the development of a particular project and on prevailing market supply and demand conditions. Therefore, the prices we may charge for our properties, are affected by various factors outside our control, including prevailing local economic, income and demographic conditions, interest rates available to purchasers requiring financing, the availability of comparable properties completed or under development, changes in governmental policies relating to zoning and land use, changes in applicable regulatory schemes, and competition from other real estate development firms. We consider the above mentioned factors in determining the price, cost of acquisition of the land or development rights and final estimates of the construction costs, a premium, depending on the location of the project and facilities provided, and prevailing market for similar developments in that segment.

Competition

We also face competition from various small unorganized operators and large builders in the residential & commercial segment. However, we believe that our commitment to quality, past record of timely execution and transparency will provide us with an edge over our competitors. Our industry is highly competitive while being unorganized and fragmented. This market is not governed directly by any regulations or any governmental authority. We face competition from both organized and unorganized players in the market.

Utilities and Infrastructure

Our registered office and site offices are well equipped with computer systems, internet connectivity, other communications equipment, security, drainage, lighting, sanitation, emergency services and other facilities, which are required for our business operations to function smoothly.

Materials

We also procure materials locally from near the project site. We also do quality checks of the materials supplied. Stringent norms are adhered to while enrolling new vendors, who are selected based on their capabilities.

Power

The construction projects are not power intensive. Power is required at site for running various machineries and equipment and also for lighting. Generally, power requirement is met at site through normal distribution channel and is generally sourced from local bodies.

Water

The Company meets its water requirement largely by digging tube wells at project sites.

Fuel

We require fuels such as diesel for operation of DG Sets. We source the same through local vendors.

Environment, Health and Safety

We are committed to complying with applicable health, safety and environmental regulations and other requirements in our operations. To help ensure effective implementation of our safety policies and practices, at the beginning of every property development we identify potential material hazards, evaluate material risks and institute, implement and monitor appropriate risk mitigation measures. We believe that accidents and occupational health hazards can be significantly reduced through the systematic analysis and control of risks and by providing appropriate training to management, employees and sub-contractors.

As a real estate developer in India, we are subject to various mandatory municipal environmental laws and regulations. The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (“Land Acquisition Act, 2013”) and the rules framed thereunder

The Land Acquisition Act, 2013 has replaced the Land Acquisition Act, 1894 and aims at establishing a participative, informed and transparent process for land acquisition for industrialisation, development of essential infrastructural facilities and urbanisation. The Land Acquisition Act, 2013 provides for the procedure to be undertaken when the government seeks to acquire land in any area for a public purpose, including carrying out a social assessment study to determine inter alia whether the acquisition would serve a public purpose. While aiming to cause least disturbance to landowners and other affected families, it contains provisions aimed at ensuring just and fair compensation to the affected families whose land has been acquired or is proposed to be acquired. The compensation is determined by taking into consideration the market value of the land, damage sustained by interested persons, and consequence of the acquisition on the person.

Transfer of Property Act, 1882 (“TP Act”)

The TP Act establishes the general principles relating to the transfer of property in India. It forms a basis for identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. It also provides for the rights and liabilities of the vendor and purchaser and the lessor and lessee in a transaction for the sale or lease of property, as the case may be. The TP Act also covers provisions with respect to mortgage of property.

Laws relating to land acquisition and land use:

The Urban Land (Ceiling & Regulation) Act, 1976 prescribes the limits to urban areas that can be acquired by an entity. It has been repealed in some states and union territories under the Urban Land (Ceiling & Regulation) Repeal Act, 1999, but it remains in operation in the other states. Further, land holdings are subject to the Land Acquisition Act, 1894, which provides for the compulsory acquisition of land by the appropriate government for purposes categorized as “public purpose”, including planned development and town and rural planning. However, any person having an interest in such land has the right to object and the right to compensation.

Urban Development Laws

State legislations provide for the planned development of urban areas and the establishment of regional and local development authorities charged with the responsibility of planning and development of urban areas within their jurisdiction. Real estate projects have to be planned and developed in conformity with the norms established in these laws and regulations made thereunder and require sanctions from the government departments and developmental authorities at various stages.

Where projects are undertaken on lands, which form part of the approved layout plans and/or fall within municipal limits of a town, generally the building plans of the projects have to be approved from concerned municipal or developmental authority. Building plans are required to be approved for individual buildings. Clearances with respect to other aspects of development such as fire, civil aviation and pollution control are required from appropriate authorities, depending on the nature, size and height of the projects. The approvals granted by the authorities generally prescribe a time limit for completion of the projects. These time limits are renewable upon payment of a prescribed fee. The regulations provide for obtaining a completion/occupancy certificate upon completion of the project.

Agricultural development laws

The acquisition of land is regulated by state land reform laws, which prescribe limits up to which an entity may acquire agricultural land. Any transfer of land that results in the aggregate land holdings of the acquirer in the state to exceed this ceiling is void, and the surplus land is deemed, from the date of the transfer, to have been vested in the state government free of all encumbrances. When local authorities declare certain agricultural areas as earmarked for townships, lands are acquired by different entities. After obtaining a conversion certificate from the appropriate authority with respect to a change in use of the land from agricultural to non-agricultural for development into townships, commercial complexes etc. such ceilings are not applicable. While granting licenses for development of townships, the authorities generally levy development/external development charges for provision of peripheral services. Such licenses require approvals of layout plans for development and building plans for construction activities. The licenses are transferable on permission of the appropriate authority. Similar to urban development laws, approvals of the layout plans and building plans, if applicable, need to be obtained.

The Central Government may also enter into an agreement with any person (being, either an individual, a partnership firm, a company, a joint venture, a consortium or any other form of legal entity, Indian or foreign, capable of financing from own resources or funds raised from financial institutions, banks or open market) in relation to the development and maintenance of the whole or any part of a ‘National Highway’. Such agreement may provide for designing and building a project and operating and maintaining it, collecting fees from users during an agreed period, which period together with construction period is usually referred to as the ‘concession period’. Upon expiry of the ‘concession

period', the right of the person to collect fees and his obligation to operate and maintain the project ceases and the facility stands transferred to the central government.

Registration Act, 1908 ("Registration Act")

The Registration Act has been enacted with an objective, amongst other things, to provide a method of public registration of documents so as to give information to the public regarding legal rights and obligations arising or affecting a particular property, and to perpetuate documents which may afterwards be of legal importance, and also to prevent fraud. The Registration Act details the formalities for registering an instrument. The Registration Act requires the compulsory registration of certain documents, including documents relating to the conveyance of immovable property. A document must be registered within four months from the date of its execution and must be registered with the sub-registrar, within whose sub-district the whole or some portion of the property is situated. A document will not affect the property comprised in it, nor be treated as evidence of any transaction affecting such property (except as evidence of a contract in a suit for specific performance or as evidence of part performance under the TP Act or as collateral), unless it has been registered.

Indian Stamp Act, 1899 ("Stamp Act")

The Stamp Act requires stamp duty to be paid on all instruments specified in Scheduled 1 of the Stamp Act. The applicable rates for stamp duty on instruments chargeable with duty vary from state to state. Instruments chargeable to duty under the Stamp Act, which are not duly stamped, cannot be admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments that are not sufficiently stamped or not stamped at all by the collector and he may impose a penalty of the amount of the proper stamp duty, or the amount of deficient portion of the stamp duty payable.

Indian Easements Act, 1882 ("Easement Act")

The Easement Act codifies easements in India, including the nature of easements as continuous or discontinuous and apparent or non-apparent. Under the Easement Act, an easement may be imposed by any person in the circumstances and to the extent to which he may transfer his interest in the property. Once an easement is obtained, a person may enjoy the property in respect of which it is granted. An easement is a right which the owner or occupier of land possesses for the beneficial enjoyment of that land and which permits him to do or to prevent something from being done, in or upon, other land not his own. Under the Easements Act, a license is defined as a right to use property without any interest in favour of the licensee. The period and incident upon which a license may be revoked and grounds for the same may be provided in the license agreement entered in between the licensee and the licensor.

National Building Code of India, 2016 (the "Code")

The Code a comprehensive building code, is a national instrument providing guidelines for regulating the building construction activities across the country. It serves as a model code for adoption by all agencies involved in building construction works, including the public works departments, other government construction departments, local bodies or private companies in the field of construction. The Code mainly contains administrative regulations, development control rules and general building requirements; fire safety requirements; stipulations regarding materials, structural design and construction (including safety) and building and plumbing services.

Benami Transactions Prohibition Act, 2019

A Benami transaction is a transaction of a property wherein a property is transferred to or held by a person and the consideration for such property has been provided or paid by another person and the property is held for the immediate or future benefit, direct or indirect of the person who has provided the consideration, with certain exceptions, or properties held and purchased in fictitious name or where the owner of the property is not known or the owner is not aware of the ownership of such property in his name or where the owner is not traceable. The Act prohibits the benami transaction and any transaction entered into and falling in the category of Benami has been made a punishable offence with a provision of confiscation of the subject property.

Indian Contract Act, 1872

The Indian Contract Act, 1872 (“Contract Act”) codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and the breach enforced. It provides a framework of rules and regulations that govern formation and performance of contract. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

The Specific Relief Act, 1963

The Specific Relief Act is complimentary to the provisions of the Contract Act and the T.P. Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. ‘Specific performance’ means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

Regulations Regarding Foreign Investment

Foreign investment in companies in the construction development sector is governed by the provisions of the Foreign Exchange Management Act, 1999 (“FEMA”) read with the applicable regulations. The Department of Industrial Policy and Promotion (“DIPP”), Ministry of Commerce and Industry has issued the Consolidated FDI Policy (the “Consolidated FDI Policy”) which consolidates the policy framework on Foreign Direct Investment (“FDI”), with effect from August 28, 2017. The FDI Policy consolidates and subsumes all the press notes, press releases, and clarifications on FDI issued by DIPP till August 27, 2017. All the press notes, press releases, clarifications on FDI issued by DIPP till August 27, 2017 stand rescinded as on August 28, 2017. Vide an Office Memorandum dated June 5, 2017 (“Office Memorandum”), issued by Ministry of Finance, Department of Economic Affairs the Government of India has abolished Foreign Investment Promotion Board (“FIPB”). In terms of the FDI Policy, Foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. Subsequent to the abolition of FIPB, the work of granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned Administrative Ministries/Departments.

FDI for the items or activities that cannot be brought in under the automatic route may be brought in through the approval route. Where FDI is allowed on an automatic basis without the approval of the Government, the RBI would continue to be the primary agency for the purposes of monitoring and regulating foreign investment. In cases where Government approval is obtained, no approval of the RBI is required except with respect to fixing the issuance price, although a declaration in the prescribed form, detailing the foreign investment, must be filed with the RBI once the foreign investment is made in the Indian company. The RBI, in exercise of its power under the FEMA, has also notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000 to prohibit, restrict or regulate, transfer by or issue of security to a person resident outside India. The Consolidated FDI Policy dated August 28, 2017 issued by the DIPP permits foreign investment up to 100% in the Company under the automatic route.

Further, the FDI Policy made effective from August 28, 2017 permits investment, subject to the following conditions:

(A) (i) The investor will be permitted to exit on completion of the project or after development of trunk infrastructure i.e. roads, water supply, street lighting, drainage and sewerage and (ii) Notwithstanding anything contained at (A) (i) above, a foreign investor will be permitted to exit and repatriate foreign investment before the completion of project under automatic route, provided that a lock-in-period of three years, calculated with reference to each tranche of foreign investment has been completed. Further, transfer of stake from one non-resident to another non-resident, without repatriation of investment will neither be subject to any lock-in period nor to any government approval.

(B) The project shall conform to the norms and standards, including land use requirements and provision of community amenities and common facilities, as laid down in the applicable building control regulations, bye-laws, rules, and other regulations of the State Government/Municipal/Local Body concerned.

(C) The Indian investee company will be permitted to sell only developed plots. For the purposes of this policy "developed plots" will mean plots where trunk infrastructure i.e. roads, water supply, street lighting, drainage and sewerage, have been made available.

(D) The Indian investee company shall be responsible for obtaining all necessary approvals, including those of the building/layout plans, developing internal and peripheral areas and other infrastructure facilities, payment of development, external development and other charges and complying with all other requirements as prescribed under applicable rules/bye-laws/regulations of the State Government/Municipal/Local Body concerned.

(E) The State Government/Municipal/Local Body concerned, which approves the building/development plans, will monitor compliance of the above conditions by the developer.

It is clarified that FDI is not permitted in an entity which is engaged or proposes to engage in real estate business, construction of farm houses and trading in transferable development rights (TDRs). "Real estate business" for the purpose of the Consolidated FDI Policy Circular of 2017 means dealing in land and immovable property with a view to earning profit there from and does not include development of townships, construction of residential/ commercial premises, roads or bridges, educational institutions, recreational facilities, city and regional level infrastructure, townships. Further, earning of rent/ income on lease of the property, not amounting to transfer, will not amount to real estate business.

Phased implementation of Unified Payments Interface

SEBI has issued a ***UPI Circulars*** in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I: This phase has become applicable from January 1, 2019 and will continue till June 30, 2019. Under this phase, a Retail Individual Applicant would also have the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing would continue to be six Working Days.

Phase II: This phase commenced on completion of Phase I i.e. with effect from July 1, 2019 and was to be continued for a period of three months or launch of five main board public issues, whichever is later. Further, as per the SEBI circular SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, the UPI Phase II has been extended until March 31, 2020. Further still, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount be continued till further notice. Under this phase, submission of the Application Form by a Retail Individual Applicant through intermediaries to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing would be reduced to be three Working Days. Accordingly, upon commencement of Phase III, the reduced time duration shall be applicable for the Issue.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers are to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Applicants into the UPI mechanism.

SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2022/45) dated April 5, 2022, has prescribed that all individual investors applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to ₹ 500,000, shall use UPI. Individual investors bidding under the Non-Institutional Portion bidding for more than ₹ 200,000 and up to ₹ 500,000, using the UPI Mechanism, shall provide their UPI ID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers. Subsequently, pursuant to SEBI circular no SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories).

BASIS OF ALLOTMENT

Allotment will be made in consultation with the SME Platform of BSE (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth hereunder:

- 1) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of Applicants in the category x number of Shares applied for).
- 2) The number of Shares to be allocated to the successful Applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- 3) For applications where the proportionate allotment works out to less than 6,000 equity shares the allotment will be made as follows:
 - i. Each successful Applicant shall be allotted 6,000 equity shares; and
 - ii. The successful Applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.

- 4) If the proportionate allotment to an Applicant works out to a number that is not a multiple of 6,000 equity shares, the Applicant would be allotted Shares by rounding off to the nearest multiple of 6,000 equity shares subject to a minimum allotment of 6,000 equity shares.
- 5) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Applicants in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 6,000 Equity shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this Draft Prospectus.
- 6) Since present issue is a fixed price issue, the allocation in the net offer to the public category in terms of Regulation 253(2) of the SEBI (ICDR) Regulations, 2018 shall be made as follows:
 - a) Minimum fifty percent (50%) To Retail Individual Investors; and
 - b) Remaining to:
 - Other investors including corporate bodies or institutions, irrespective of the number of specified securities applied for
 - c) The unsubscribed portion in either of the categories specified in (a) or (b) above may be allocated to the applicants in the other category.

Explanation: If the retail individual investor category is entitled to more than fifty per cent on proportionate basis, accordingly the retail individual investors shall be allocated that higher percentage.
